I think fashion is repulsive.The whole idea that someone esle can make clothing that is supposed to be in style and amke other people look good is ridiculous.It sickens me to think that there is an industry that plays to the low self- esteem of the general public.I would like the fashion indudtry to collapse.3

SOPHISTIC

Fashion is a great thing,it's a way to express who you are'

When you see a fashion show, you see those seven minutes of what was six months of tedious work of, you know, going up an inch and down an inch, changing it from one shade of red to another shade of red. so it's the same as any creative process. The result is what we see, but the process is really labor intensive and work. Fashion has always been a repetition of ideas but what makes it new is the makes it new is the way you put it together.

Fashion pictures show people looking glamorous. Travel pictures shoe a place looking at its best, nothing to do with the reality. In the cookery pages, the food always looks amazing, right? Most of the pictures we consume are propaganda.
