

Life  
OF  
Colour

*The colors, when from the folds of the  
sky, find a universal colour, united with  
nothing. The green of forests, the blue of  
the sky, the red of the sunset, the white of  
the snow, the black of the night, the brown  
of the earth.*

Life  
OF  
Colour

*The colors, when from the folds of the  
sky, find a universal colour, united with  
nothing. The green of nature, the blue of  
the sky, in a way, are not really the  
same, still they are drawn from the same  
palette.*
