is a history of people. During the past centuries, it was the courtesans and designers that laid the foundations of the modern fashion industry. We know today. The liberation of women from covered confinement, the creation of ready-to-wear clothing, tops, trousers, window shades, floral prints, Indian silhouettes, tailoring and even protection of intellectual property rights, are each a direct result of the ingenuity, tenacity and creative genius of individuals who were in their lifetime stylistic and social visionaries.
