AAYAT

VOL 17

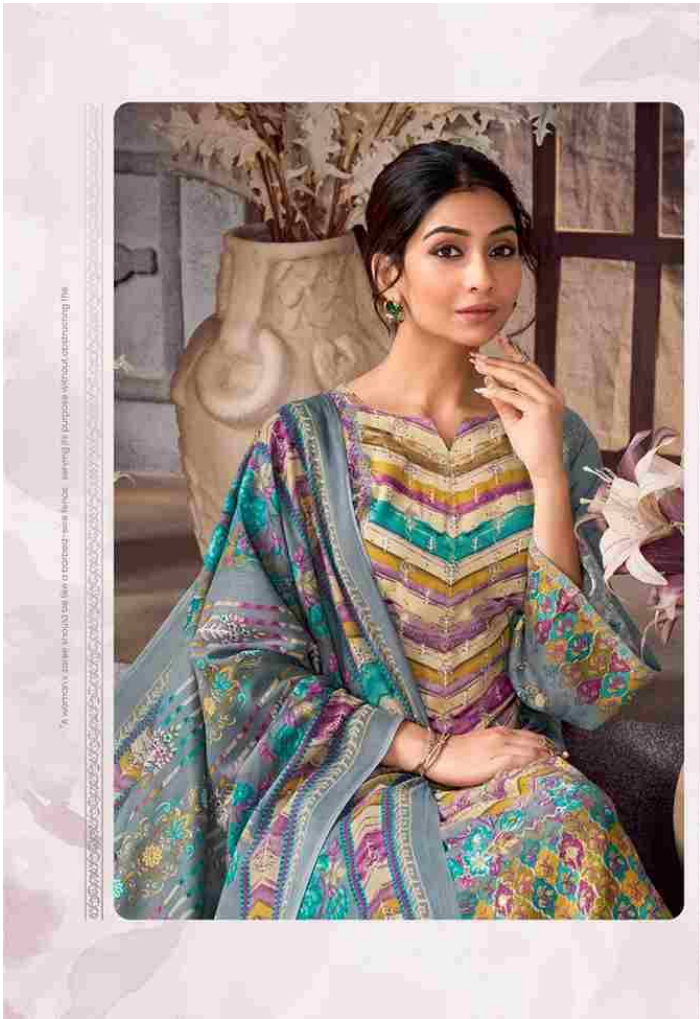

"Anyone can get dressed up and glamorous, but it is how people dress in their days
off that are the most intriguing."

"It's a secret" and "I did it" are more about style than fashion. A woman knowing herself, more and more, and looking for new things, is getting into her own personal style being more than just a fashion addict, she is interested in it.

"I think we all know ourselves when we see it. Nothing makes me more proud than when I see someone being truly themselves, with their own collection of style and character. Welcome to Zulfat."
