Women think of all colors except the absence of color.  
 I have said that black has it all while too their beauty is absolute it's the perfect harmony.

While clothes  
may not make  
the woman  
they certainly  
have a strong  
effect on her  
self confidence  
and which I  
believe does  
make the  
difference

Fashion is so close in revealing a person's inner feelings and everybody seems to hate to lay claim to vanity  
so people tend to push it away it's really too close to the source of the soul

Just around the corner is every woman's mind is a lovely dress, a wonderful suit or entire costume which will make an enchanting new creature of her.

Fashion anticipates and elegance is a state of mind a mirror of the time in which we live a translation of the future and should never be static.
